

Lota Set

Small copper or brass lotas are vessels used to carry offerings to the deities of water, food or flowers. They are used during religious activities, like Hindu puja worship when the lota is often decorated with sindoor (a traditional red or orange-red coloured cosmetic powder), and/or turmeric powder.

This 6 piece lota can be used as single vessels or as an incense holder. The incense is burned in the top section as an offering during prayer and chanting of mantras.
