

Quran Cover

The Quran, or the Muslims' holy book, is considered to be the only revelation of God which exists in the world in its original form, without any human interference.

A true Muslim believes in each and every verse of the book and applies it in his day to day life. As God says in the Quran, that he created man with common sense, man should use his sense along with a knowledge of Quran to make decisions.

The Quran is covered by a cloth such as this when it is not being read to protect it.
